# Bicycle and Pedestrian Safety Enforcement Training

The training program, a partnership between bicycle advocacy and local law enforcement, provides police with state and national pedestrian and bicycle safety/education materials and training at no cost. Training included brochures, CD-rom training, roll call videos and a 2-day in person training.

**Benefits, Goals and Results:** Educated police officers about the most common actions that lead to bike/ped injuries and how to enforce them.

**Transferability:** Resources and training can be made available to police departments across Greater Cleveland
